Barton, 1619.

A Prognostication, for the *yeare of our Lord GOD*, 1619. beeing thirde *from the Leape yeare.*

Wherein is set forth the Disposition of the foure quarters of this yeare, the inclination of the Weather, according to the position of the Heauens, at euery Full, Change, and Quarter of the Moone, throughout the Yeare, with Generall Abstracts for each seuerall Moneth within this Yeare.

With the mutuall Aspects of the Planets amongst themselues (at the head of euery Moneth) as you may see.

All which things, the most Religious man may make obseruation of, to the worship and honour of God, without any superstition at all.

Made & set forth, according to lawful Art, by *Gr. Burton*, of *Wymondham*, in the Countie of *Norfolke*, Practitioner in *Physicke*, and the arts *Mathematicall. &c.*

Imprinted at London, for the *Company of Stationers.*

A BRIEFE DESCRIPtion of the ſtate and qualitie of the foure Quarters of the yeare.

And firſt of Winter.

THe Hyemall or Winter-quarter, beganne with vs the 12. day of December 1618, at 9. and 26. Minutes in the forenoone, and continueth whilest the Sunne runnes his Course through these 3. Signes, *vid:* ♑. ♒. ♓.

This part of the yeare is likely to proove moiſty, ſleety, weat, and windie, with some Frosts, about the middle part thereof, &c.

The Diſeaſes common to this Quarter, are Coughes, Catharres, Rhumes, ſhortnes of wind, Palſies, Apoplexies, Collicke, Strangurie and ſtone, Stitches, Cramps, Ache in the Knees and Ioynts, &c.

The Springs Prediction.

THe Spring or Vernall part of this yeare, beginneth with vs, the 11. day of March, 41. mi-

nutes after high Noone, and lasteth whilest the Sunne continueth his course through these 3. signes ♈. ♉. and ♊.

The first part of this Spring, is likely to proue very wet and windie, the latter part more dry, &c.

The Diseases incident to this Quarter, are Coughes, Fayntings, Paynes in the head, sore Eyes, Phrensies, Fluxes of bloud, Plurisies, the small poxe, and Agues of many kindes, &c.

A Prediction of the Summer.

The Sunne hauing finished his course through the three Vernall or Spring-signes, beginneth our Summer Quarter, the 12. day of Iune, at 9. and 16. minutes before noone: Which Quarter the Sunne continueth his passage through these Aestiuall signes, ♋. ♌. and ♍.

This part or Quarter of the Yeare is likely to proue windie, and oft times showrie: for so the position of the Heauens prefigniſie.

The Sicknesses of this Quarter, are like to prooue hote burning pestilentiall Feauers, Tertian Agues, Iaundize, Fluxes, Inflammations

flammations of the Eyes, Puſtills in the face, &c.

Autumnes Prediction.

The Autumnall or Harueſt quarter, begynneth with vs the 13. day of September, at 11. and 19 minutes at night, and laſteth whileſt the ſunne holds his courſe through ♎, ♏, and ♐.

This quarter is likely to be according to its naturall inclination, which is colde and drye, but chiefly the latter part thereof, &c.

The Sickneſſes and griefes of this Quarter, are moſte commonly Quartane Agues, Coughes, Paine in the Ioyntes, Melancholicke paſſion, Falling ſicknes, with a kinde of lameneſſe, and weakeneſſe of the Ioyntes, &c.

¶ *A DESCRIPTION OF the diſpoſition of the Weather, for e-* uery Change, Full, and Quarters of the Moone, throughout this yeare; The mutuall Aſpects of the Planets each *to other, (thoſe dayes they happen) ſet downe* at the head of euery Moneth, as (*you may ſee,*) *as alſo profita-* table Abſtracts for euery Moneth through- *out the yeare.* *with* the principall Fayres of *England* and *Wales.*
